Profile

I'm currently studying for a master's degree in mathematical science at the University of Primorska, Slovenia. I have over 6+ years of experience in creative design, development, and IT work, working with both local and international companies and clients.

My background includes graphic design and branding, visual content creation, video editing, digital marketing and social media management, website development, server setup and maintenance, LAN/WAN networking, and handling day-to-day IT operations. I enjoy working on practical solutions, whether it's creating visual content, building websites, or solving technical issues.

I'm comfortable using tools like Adobe Creative Suite (Photoshop, Illustrator, Canva), Premiere Pro and After Effects, Figma and Adobe XD, as well as WordPress, Shopify, and Wix. I also have experience with web technologies such as HTML, CSS, JavaScript, PHP, Laravel, Node.js, and React.js, along with server management and ERP systems.
